Board of Trustees of Public Schools

IN AND FOR THE

DISTRICT OF COLUMBIA.

SCHOOL YEAR, - - - - - 1889-90.

REGULAR MEETING.

FRANKLIN SCHOOL BUILDING, *July 9, 1889.*

The Board of Trustees of Public Schools of the District of Columbia met on the above date.

Present: The President, Mr. John W. Ross, and Messrs. Darlington, Whelpley, White, Gregory, Francis, and Cornish; in absence of the Secretary, Mr. J. G. Gurley, Prof. Gregory acted as Secretary.

The following communications were received:

Preambles and resolution adopted at a meeting of "The Citizens' Association of Northeast Washington," July 1, 1889, requesting "that the District Commissioners, the Superintendent of the Public Schools of the District, and the Board of School Trustees" endeavor to secure from Congress the appointment of one graduate of the Washington High School, each year, to the United States Military and Naval Academies, respectively.

Referred to the Honorable Commissioners with the recommendation that they transmit the same, with their favorable endorsement, to the President.

A petition (dated July 9, 1889) from Ella Green, Anna T. Brown, and six (6) others, graduates of the Washington Normal School of the Seventh and Eighth Divisions, class of 1889, "requesting an investigation into the management and method of conducting said school, particularly the method of the principal of said school in reaching the percentage of the graduates in class standing."

Referred to Committee on Normal and High Schools for investigation.

Applications for janitors' position were received from Ed. Hyatt, Edward Mason, and Charles Brown.

Returned to applicants for presentation to Local Committees, individually.

Mr. DARLINGTON, local committee, First Division, submitted the following recommendations for that division:

Accept resignation of K. A. Wilson, teacher of class 13, to take effect June 30, 1889.

Accepted.

Grant leave of absence, without pay, from July 1, 1889, to June 30, 1890, inclusive, to J. E. L. Moore, teacher of class 11.

Granted.

Appoint H. F. McQueeney (transferred from Brent School, Third Division) janitor of Berret School (new), to take effect July 1, 1889.

Approved.

Place the name of Grace Teulon on list of substitute teachers.

Referred to Committee on Teachers and Janitors.

Mr. Ross, local committee, Second Division, submitted the following recommendations for that divisions:

Appoint J. C. Wheat janitor of Arthur School (new), to take effect July 1, 1889.

Referred to Committee on Teachers and Janitors.

Extend leave of absence, without pay, of S. A. Dalton, teacher of class 6, until February 28, 1890, inclusive.

Approved.

Grant certificate of next higher class to Jennie E. Davis, on recommendation of supervising principal, Superintendent, and local committee, in accordance with the by-law of the Board respecting successful teaching.

Granted.

Mr. WHELPLEY, local committee, Third Division, submitted the following recommendations for that division:

Appoint Charles L. Witherow janitor of Towers School, to take effect July 1, 1889, *vice* J. A. Hewes, transferred to Brent School, to take effect same date.

Appoint Henry T. Simpson janitor of Lenox School (new), to take effect July 15, 1889.

Referred to Committee on Teachers and Janitors.

Mr. CORNISH, local committee, Eighth Division, submitted the following recommendations for that division:

Appoint Charles Brown and Lewis Russell janitors of the George Bell and Jones Schools (new), respectively, to take effect July 1, 1889.

Referred to Committee on Teachers and Janitors.

Prof. GREGORY, from the Committee on Teachers and Janitors, submitted the following communication with the recommendation that it be approved and that the diplomas be issued:

OFFICE OF SUPERINTENDENT PUBLIC SCHOOLS,
SUMNER SCHOOL BUILDING, WASHINGTON, D. C., July 9, 1889.
To the Committee on Teachers, etc.

GENTLEMEN: The following-named graduates of the Washington Normal School, Seventh and Eighth Divisions, have taught in the Public Schools of the District of Columbia at least one year, and in my judgment given evidence of ability to govern and instruct a school. I recommend that the diploma of the Normal School be conferred upon them: Eslanda E. Cardozo, Williana M. Harris, Julia M. Alston, Celestine Glascoe, Mary L. Watson, Marie I. Williams, Martha A. Gray, Hattie L. Hawkins, Ellen M. Lynch, Mary E. Barney, Narcissa E. C. F. Beale, Mary E. Clarke, Mary M. Dowling, Fannie Martin, Emma L. Pindle, Eulalia Wheeler, Ida C. Winslow.

Respectfully submitted,

G. F. T. COOK,
Superintendent.

Adopted.

Prof. GREGORY, from the same committee, also reported favorably the recommendations of the several local committees referred to said committee this date, and the same were approved.

Mr. DARLINGTON, from the committee on Normal and High Schools, submitted the following recommendations affecting those schools:

Accept resignation of E. S. Atkinson, principal of Washington Normal School, to take effect June 30, 1889.

Accepted.

Grant leave of absence, without pay, from July 1, 1889, to June 30, 1890, inclusive, to E. R. Bogle and H. M. Hayes, teachers of class 12, Washington High School.

Granted.

Adjourned, subject to call of the President.

SPECIAL MEETING.

The Board of Trustees of Public Schools of the District of Columbia met on the above date pursuant to call by the President.

Present: The President, Mr. John W. Ross, and Messrs. Darlington, Whelpley, White, Mitchell, Witmer, Gregory, Francis, and Cornish; Mr. J. G. Gurley, secretary.

The reading of the minutes of the meeting held the 9th inst. was dispensed with.

Applications for janitors' positions were received from Charles R. Beckley and J. Mathews.

Referred back to applicants for presentation to trustees, individually.

Mr. DARLINGTON, local committee, First Division, presented the applications of Miss Bessie Searle and Miss Minnie Riggles for positions as substitute teachers with favorable recommendations.

Approved.

Mr. WHELPLEY, chairman of Committee on Ways and Means, etc., submitted the following communication sent by him, on behalf of this Board, to the Honorable First Comptroller of the United States Treasury, and the reply thereto:

TREASURY OF THE UNITED STATES,
WASHINGTON, *July 16, 1889.*

Hon. A. C. MATTHEWS,
First Comptroller, Treasury Department.

SIR: For the information of the Trustees of the Public Schools in the District of Columbia I beg to request an official decision on the following subject, viz:

Under the District of Columbia appropriation bill approved March 2, 1889, can the salaries of teachers now receiving \$1,500 be reduced to \$1,200 each? Can the salaries of teachers now receiving \$1,000 be increased to 1,200? Providing that the aggregate number of teachers receiving \$1,000 or more be not thereby increased. R. S., Vol. 25, p. 800.

Very respectfully,

J. W. WHELPLEY,
Trustee, Public Schools.

TREASURY DEPARTMENT, FIRST COMPTROLLER'S OFFICE,
WASHINGTON, D. C., *July 17, 1889.*

J. W. WHELPLEY, Esq.,
Trustee, Public Schools, Washington, D. C.

SIR: In reply to your communication of July 16, 1889, requesting an official decision on the questions, "Can the salaries of teachers now receiving \$1,500 be reduced to \$1,200? Can the salaries of teachers now receiv-

ing \$1,000 be increased to \$1,200, providing that the aggregate number of teachers receiving \$1,000 or more be not thereby increased?" R. S., Vol. 25, p. 800.

I have to say that the act of March 2, 1889, making appropriation for "Public Schools, D. C., 1890," provides that the teachers are to be employed at a rate of compensation not to exceed the rate provided by the present schedule of salaries, and no increase in the number of teachers in any grade where the compensation is \$1,000 or more, exclusive of principals of normal, manual training, drawing, and country schools, shall be made.

The schedule provides for seven (7) teachers of the \$1,200 grade, and I have to decide that any increase of that number is prohibited by the act making the appropriation.

Respectfully yours,

A. C. MATTHEWS,
First Comptroller.

Filed.

On motion, the Board then proceeded to the consideration of teachers' salaries for the current fiscal year.

Action was taken as follows on the rolls submitted by the Committee on Teachers and Janitors, the same being *merely tentative, except* in the case of the action respecting the *salary of the director of drawing of the first six divisions*:

On motion of Mr. Ross (Mr. Cornish in the Chair) the pay-rolls of the High and the Normal schools and the teachers of music were approved as reported by the committee.

Mr. MITCHELL moved that the salary of the director of drawing of the first six divisions be reduced from \$1,600 per annum, as proposed by the committee, to \$1,200 per annum.

As a substitute for the foregoing motion Mr. DARLINGTON moved that, if possible, the committee place said salary at \$1,400 per annum.

On the substitute the vote was—

Yeas—Messrs. Darlington, Ross, Francis—3.

Nays—Messrs. Mitchell, White, Witmer, Whelpley, Gregory—5.

Lost.

The motion of Mr. Mitchell was then adopted as final.

On motion of Professor GREGORY the salaries of all principals of county schools teaching the eighth grade were fixed at \$1,000 per annum.

Mr. WHITE moved that the salaries of J. A. Chamberlain and F. L. Emory, directors of manual training schools, first six divisions, be reduced from \$1,200 per annum, the salaries proposed by the committee, to \$1,000 per annum.

Mr. DARLINGTON moved, as a substitute for the foregoing motion, that the committee fix said salaries at \$1,200 per annum, if possible.

Professor GREGORY moved, as a substitute for the last two motions, that said salaries be fixed at \$1,100 per annum.

On Professor Gregory's motion the vote was—

Yeas—Messrs. Mitchell, White, Francis, Gregory—4.

Nays—Messrs. Darlington, Ross—2.

Carried.

On motion of Mr. DARLINGTON the pay-roll of the cooking schools was approved as submitted by the committee.

Mr. MITCHELL moved that the recommendation of the committee for an increase of the salary of the director of sewing, first six divisions, from \$700 to \$850 *per annum* be stricken out.

As a substitute for the foregoing motion Mr. DARLINGTON moved that said salary stand as reported by the committee.

On the substitute proposed by Mr. Darlington the vote was—

Yeas—Messrs. Darlington, Witmer, Whelpley, Ross—4.

Nays—Messrs. Gregory, Francis, White, Mitchell—4.

The Chairman, Mr. Cornish, there being a tie vote, cast his vote in the affirmative.

So the substitute offered by Mr. Darlington was adopted.

Mr. DARLINGTON requested that he be recorded as against every reduction of the committee's provisions for salaries of teachers of the manual training schools.

Granted.

Messrs. WHITE and MITCHELL requested that they be recorded as in favor of said reductions.

Requests granted.

Mr. DARLINGTON moved that the schedules of the committee as amended by the Board be approved, subject to equalization of teachers' salaries in the sixth division.

Carried.

On motion the pay-rolls were referred back to the Committee on Teachers and Janitors for revision and further report.

Adjourned.

SPECIAL MEETING.

The Board of Trustees of Public Schools of the District of Columbia met on the above date pursuant to call by the President.

Present: The President, Mr. John W. Ross, and Messrs. Darlington, White, Mitchell, Witmer, Gregory, Francis, and Cornish; Mr. J. G. Gurley, secretary.

The reading of the minutes of the meetings held July 9th and 17th was dispensed with.

The following communications were received:

OFFICE OF THE COMMISSIONERS,
DISTRICT OF COLUMBIA,
WASHINGTON, July 25, 1889.

Ordered, That the Public School building on the south side of R street, between 17th street and New Hampshire avenue, is hereby named the Adams School in honor of President John Adams.

JAS. M. GREGORY,
A. H. WITMER, M. D.,
Committee.

Adopted.

Dr. FRANCIS, from the Committee on Normal and High Schools, recommended that leave of absence, without pay, for one year, beginning July 1, 1889, be granted Miss M. E. Church, teacher in Washington High School of Seventh and Eighth Divisions.

Granted.

Mr. WHITE, from the Committee on Text Books, etc., submitted the following report:

WASHINGTON, D. C., *July 29th, 1889.*

To the Board of Trustees of Public Schools of the District of Columbia.

GENTLEMEN: The Committee on Text Books, etc., have the honor to recommend the adoption of the following resolution, to take effect on the reopening of the schools in September, 1889:

ORDERED:

1. That the following-named books are hereby adopted for use in the eighth grade schools in the manner prescribed below: The Eclectic Physical Geography, Andrew's Manual of the Constitution, Thorp's Government of the People, and Cocker's U. S. Government.

2. That one dozen copies of these books, in the aggregate, be furnished for use in each eighth grade school by the Superintendents, and that the purchase of said books be optional on the part of pupils.

Respectfully submitted:

(Signed)

GEO. WHITE,
J. T. MITCHELL,
JAS. M. GREGORY,
Committee on Text Books, etc.

Adopted.

Prof. GREGORY, from the Committee on Teachers and Janitors, submitted the following report:

WASHINGTON, D. C., July 29, 1889.

To the Board of Trustees of Public Schools of the District of Columbia.

GENTLEMEN: The Committee on Teachers and Janitors have the honor to submit the following report respecting the adjustment of the salaries of teachers of the Public Schools for the current school year, in accordance with the requirements of the appropriation act.

The act provides 745 teachers at an annual average salary not to exceed \$680, and the sum of \$506,600, an increase over the year just closed of 52 in the number of teachers, \$10 in the average annual salary and \$42,290 in the aggregate amount of teachers' salaries. All of those restrictions which rendered the organization of the schools so difficult in the year just passed are retained in the existing appropriation act, with two modifications, namely: the increase in the average annual salary and the raising of the *minimum* amount, above which no increase either in the salary of any teacher or in the number of teachers at any grade of salary can be made, from \$900 to \$1,000.

Your committee was also confronted at the beginning of their task by two considerations of great weight: *First*, the assurance given the Appropriations Committees of the two Houses of Congress on the part of this Board of the firm intention of the Board to equalize the salaries of the teachers under its control the current fiscal year; and, *secondly*, the intent and purpose of the committee, plainly and repeatedly expressed during the past few years, that in any revision of teachers' salaries the so-called "longevity system" should not be retained.

That the present method of adjustment salaries could not be adhered to without increasing the complexity and difficulty of organizing and maintaining the schools, year by year, especially in view of the restrictions of the appropriation acts, evidencing the opinion of Congress, seemed to your committee the only warrantable conclusion. They therefore adopted the two principles referred to, equalization and the abolition of the longevity system, except in the case of salaries of less than \$500 *per annum*, as the bases of the new adjustment.

In order that the teachers might receive the full benefit of the provisions of the appropriation act a careful estimate was made of the cost of placing all the teachers of each grade at the *maximum* salary of that grade as provided in the existing schedule. It was found that the amount of the appropriation would not justify such a schedule by many thousand dollars, while, on the other hand, a large amount of money would remain unexpended were the teachers to be placed at the *minimum* salaries of their respective grades. By a careful computation of the cost involved in each change the following schedule of salaries was determined on, the largest salary being provided in each case consistent with the needs of the schools and the requirements of the appropriation act. The table below shows the comparison between this proposed schedule and the existing schedule in its *maximum*, middle, and *minimum* salaries.

Grades.	Existing schedule.					Proposed schedule.	
	1st yr.	2d yr.	3d yr.	4th. yr.	5th yr.		
First and Second :						} <i>Same as existing schedule.</i>	
Half-day schools --	\$400	\$425	\$450	\$475	\$500		
Whole-day schools.	500	550	600				
	<i>Maximum.</i>		<i>Middle.</i>		<i>Minimum.</i>		
	Male.	Female.	Male.	Female.	Male.	Female.	
Third grade-----	\$650	\$650	\$600	\$600	\$550	\$550	\$550
Fourth grade-----	750	700	700	650	650	600	650
Fifth grade -----	800	750	750	700	700	650	700
Sixth grade -----	850	800	800	750	750	700	775
Seventh grade-----	900	850	850	800	800	750	825

Eighth grade, from \$900 to \$1,500, inclusive.—*See body of report.*

It was deemed wise to continue the "longevity system" in force now in schools of the first and second grades, taught mostly by recent graduates of the normal schools—salaries in such grades being in no case above \$500 *per annum*. This exception to the abrogation of the "longevity system" has met with no opposition on the part of Congress, which aimed at the reduction of the higher salaries.

The greatest difficulty in the work of revision arose from the peculiar state of salaries in the eighth grade schools and the entire lack of flexibility in attempting to remedy the matter, owing to the restrictions of the appropriation act. In this grade nearly all teachers receive at least \$1,000, while many receive between that amount and \$1,500—the *maximum* pay of the grade.

The decision of the Honorable First Comptroller of the United States Treasury, of July, 1889, to the effect that any decrease in the number of teachers in any grade of salary of \$1,000 or more, with a corresponding increase in the number at some lower grade, also of \$1,000 or more, even though the aggregate amount should not be increased, would be contrary to the provisions of the appropriation act, left practically but one solution of the question, namely, to assign all eighth grade teachers now receiving \$1,000 or more as principals of buildings, as far as practicable at their present salaries. It is recommended that teachers of this grade who are assigned as principals of buildings now receiving less than \$1,000 be placed at \$975, and all teachers of this grade now receiving less than \$1,000, not principals, receive \$950.

Your committee also recommended that principals of buildings containing eight or more school rooms receive \$50 *per annum* more than the pay of their respective grades, and principals of buildings containing from four to eight school rooms, \$25 *per annum* more than the pay of *their* respective grades.

The several local committees hold the nominations of teachers for their respective divisions, the salaries affixed being in accordance with the plan proposed herein by your committee.

All of which is respectfully submitted :

JAS. M. GREGORY,
A. H. WITMER,

Committee on Teachers and Janitors.

Adopted.

SPECIAL MEETING.

FRANKLIN SCHOOL BUILDING, *August 5, 1889.*

The Board of Trustees of Public Schools of the District of Columbia met on the above date pursuant to call by the President.

Present: The President, Mr. John W. Ross, and Messrs. Whelpley, White, Mitchell, Gregory, and Francis; Mr. J. G. Gurley, secretary.

The reading of the minutes of the meeting held July 9th, 17th, and 29th was dispensed with.

Mr. WHITE, from the Committee on Text Books, etc., submitted the following report:

WASHINGTON, D. C., *August 5, 1889.*

To the Board of Trustees, Public Schools, D. C.

GENTLEMEN: At a meeting of the Committee on Text Books, held in the Franklin Building, August 2, 1889, the following communication was received from the Secretary: "At a meeting of the Board, held the 29th ult., the Committee on Text Books, etc., were instructed to report what physiological manikin, in their judgment should be purchased for use of the Public Schools, due consideration being given to both merit and price."

The committee having under consideration the communication of the Board beg leave to report that in their judgment "White's Physiological Manikin" for merit and price is the best for use in the schools.

GEO. WHITE,
JOHN T. MITCHELL,
JAS. M. GREGORY,
Committee on Text Books, etc.

After discussion, on motion the foregoing report was adopted and the question of the *number* of "White's Physiological Manikins" to be purchased for use in the Public Schools was referred to the President of this Board acting in conjunction with the two Superintendents.

Adjourned.

REGULAR MEETING.

FRANKLIN SCHOOL BUILDING, August 13, 1889.
The Board of Trustees of Public Schools of the District of Columbia met on the above date.

Present: Messrs. White, Mitchell, Witmer, Gregory, Francis, and Cornish.

In absence of the President, Mr. John W. Ross, Prof. Gregory was elected Chairman.

In absence of the Secretary, Mr. J. G. Gurley, Mr. W. J. Chinn was elected Secretary *pro tempore*.

The following communications were received:

OFFICE OF THE COMMISSIONERS,
DISTRICT OF COLUMBIA,

WASHINGTON, July 25th, 1889.

Ordered, That the public school building on the east side of 28th street, between M and Olive streets, is hereby named CORCORAN SCHOOL, in honor of the late Mayor Thomas Corcoran, of the city of Georgetown, D. C.

Official copy furnished Board of School Trustees.

By order:

W. TINDALL, *Secretary*.

Filed.

OFFICE OF THE COMMISSIONERS,
DISTRICT OF COLUMBIA,

WASHINGTON, August 1, 1889.

SIR: I am directed to request you to transmit to this office, *without fail*, on or before the 15th proximo, an estimate of the amount required for the conduct and support of your office for the fiscal year ending June 30, 1891, also a detailed statement of its operations and total of receipts and expenditures for the fiscal year ending June 30, 1889, and any recommendations you may deem advisable to make with the object of increasing its efficiency.

Very respectfully,

To Mr. WILLIAM B. POWELL,
Sup't of Public Schools.

W. TINDALL, *Secretary*.

Referred to Committee on Ways and Means, etc.

Dr. WITMER, local committee, Sixth Division, submitted the resignation of Mary Britt, teacher (at salary of \$500) in that division, with the recommendation that it be accepted, to take effect June 30, 1889.

Accepted.

He also offered the following order relative to the establishment of a new eighth grade school in the Seventh Division:

Ordered, That the recommendation of the local committee of the Seventh Division, for the year 1889-'90, as originally submitted to the Committee

on Teachers and Janitors, for readjustment of salaries, etc., and passed by said committee and by the Board of Trustees, be adopted.

Yeas—Messrs. White, Mitchell, Witmer, and Francis—4.

Nay—Mr. Cornish.

Adopted.

Dr. FRANCIS, local committee, Seventh Division, submitted the nomination of Kelly Miller, as teacher of the eighth grade in that division, at salary of \$975 *per annum*, to take effect Sept. 1, 1889.

Approved.

Mr. CORNISH, local committee, Eighth Division, submitted the following notice :

Notice of Change of Rule 48, Section 1.

I give notice that I shall move, at the proper time, to change Sec. 1 of Rule 48 to read: "The number of pupils in the Washington Normal School of the Seventh and Eighth Divisions shall not exceed twenty-five (25)."

The urgent reason for this change is shown by the fact that we are now graduating nearly double the number needed for the public service.

Under the former arrangement, which provided for the lawful proportion of pupils for this school, viz: *one-third*, or half the number provided for the white school, we have been able to employ every graduate but one up to 1887, but with the number increased to 40, we have 15 graduates of the class of 1888 unemployed, who, under Rule 18, Par. 5, cannot be employed. Of the class of 1889, from a class of 40 graduates, only eight have, as yet, been employed, and certainly not one-half the number graduated can be employed. We were told when the number was increased that one-half would not expect places. We have no legal right to give a professional education at the expense of the public to persons to be employed elsewhere. The spirit of the law contemplates meeting the wants of our own school system, hence the preference given in the law to the graduates of our own school, and the obligation of the pupils to teach two years if their services are needed.

(Signed)

L. A. CORNISH.

Also, that Rule 18 be so amended as to provide alike for the appointment of graduates from each of the normal schools.

(Signed)

L. A. CORNISH.

Laid on the table.

(Signed)

JAS. M. GREGORY,

A. H. WITMER,

J. W. WHELPLEY,

Committee.

Adopted.

Mr. DARLINGTON, from the Committee on Normal and High Schools, submitted the following reports:

The Committee on Normal and High Schools, to whom was referred the request of certain graduates of the Normal School of the Seventh and Eighth Divisions that the method of fixing the average standing of pupils of that school by its Principal might be investigated, beg to report that, upon examination of the matter, they are unable to find any cause or justification for such an investigation. Each pupil is marked for each exercise during the year by the teacher conducting such exercise, and the average standing is simply the mathematical average of the several markings of the respective teachers, whose record books, at the close of the year, are filed in the office of the Superintendent of those Divisions.

In the opinion of the committee the urgent need in both the Normal Schools, and especially the Normal School in question, at the present time, is the erection by the faculty of a higher degree of efficiency as essential

to graduation; the graduates, under the present rules, practically composing the teaching force of the District. The system of marking appears to us free from objection, and the teachers should not only not be repressed, but encouraged, in such strictness in that regard as should exclude, not merely from advanced standing, but from graduation, every candidate not fully prepared to do efficient work in the schools. Indeed, with the utmost sympathy for any and all candidates who may experience the disappointment of failure, the interests of the children and of the community at large demand that this be absolutely required of the Normal School faculties.

Respectfully submitted :

J. J. DARLINGTON,
JOHN W. ROSS,
Committee.

SEPT. 17, 1889.

Adopted.

The Committee on Normal and High Schools, to whom was referred the application of Mrs. Logan to admit on probation a pupil who failed to attain the standard required for promotion, herewith submit report of the Superintendent (Exhibit A) upon the case in question, with their concurrence in the views therein expressed. There can be no difference in practical effect between admitting pupils who fall 5 per cent. below the required standard and lowering the standard to that extent; and, in our judgment, it is not for the interest of the pupils themselves that this be done.

Respectfully submitted :

J. J. DARLINGTON,
JOHN W. ROSS,
Committee.

SEPT. 17, 1889.

Adopted.

EXHIBIT A.

OFFICE OF SUPERINTENDENT PUBLIC SCHOOLS,
SUMNER SCHOOL BUILDING,
WASHINGTON, D. C., Sept. 16, 1889.

MR. J. J. DARLINGTON,

Chairman Committee on Normal and High Schools.

DEAR SIR: In reply to yours of Aug. 10, I would say that the daughter of Mrs. Logan is not an Eighth-grade pupil but a member of the first-year class in the High School, and one who failed of promotion to the second-year class. This correction of Mrs. Logan's statement may make unnecessary the answers to the questions that you ask in connection therewith. I do not see any practical difference between the proposition to admit all pupils falling 5 per cent. and less below the standard, and a proposition to lower the standard of High School admission to the extent of 5 per cent.

I do not know of any circumstances justifying a temporary relaxation of the standard of admission that would not tend to form a precedent for future years. The Principal of the High School, whose opinion has been sought, states that he does not think it would be beneficial to the High School to grant Mrs. Logan's request to admit her daughter and all other pupils falling not more than 5 per cent. below the standard on probation for the first quarter of the next school year. An opinion as to the fitness of pupils for promotion, formed by the principal and his associate teachers from daily contact with them in the class-room, necessarily carries with it great weight; and, as I have no reason to doubt its accuracy, I cannot recommend that the request be granted.

It is a practice of the High School to receive pupils, who have failed to be passed up by their Eighth-grade teachers, upon a special examination in

September. Such pupils, however, have based their request for such examination upon the statement (corroborated by their teachers) that they have had special instruction during the vacation to remedy the deficiencies that prevented their promotion at the close of the school year.

Very respectfully yours,

G. F. T. Cook,
Superintendent.
Per J. W. F. S.

The Committee on Normal and High Schools, to whom was referred the application of certain pupils who failed to fully reach the standard required in the High School of the Seventh and Eighth Divisions, and who but for such deficiency would have been successful candidates for admission into the Normal School, for leave to make up during the vacation their deficiency and thereupon be admitted to the Normal School, beg leave to report that forty fully and duly qualified candidates have already been certified to the Normal School, and that, unless some of these should fail to present themselves, the present applicants could not be admitted without increasing the number beyond the limit fixed by the Rules of the Board, which, in the opinion of the committee, it is not expedient to do.

Respectfully submitted :

J. J. DARLINGTON,
JOHN W. ROSS,
Committee.

SEPT. 17, 1889.

Adopted.

Mr. DARLINGTON, from the same committee, also submitted a communication (addressed to himself, dated August 7, 1889) from Ed. W. Donn, Esq., of this city, in behalf of property owners and residents, asking this Board to recommend to the Honorable Commissioners, D. C., an increased width of parking in front of the Washington High School, O street between Sixth and Seventh streets northwest, (square 446,) to make said part of O street correspond in alignment with adjacent parts thereof, with the recommendation that said communication be forwarded to the Honorable Commissioners, D. C., with the favorable recommendation of this Board.

Approved.

Mr. DARLINGTON, from same committee, also submitted the following recommendations :

Washington Normal School.

Promote I. G. Myers from training teacher to principal, and from salary of \$1,000 to \$1,500 *per annum*, to take effect September 1, 1889, *vice* E. S. Atkinson, resignation accepted.

Promote E. V. Brown from practice teacher to training teacher, and from salary of \$800 to \$1,000 *per annum*, to take effect September 1, 1889, *vice* I. G. Myers, promoted.

(Signed)

J. J. DARLINGTON,
JOHN W. ROSS,
Committee.

Adopted.

Mr. MITCHELL, from the Committee on Buildings, Repairs, etc., submitted the following report :

SEPTEMBER 17, 1889.

The Committee on Buildings, Repairs, etc., to which was referred the proposals for the sale of ground adjoining the new school building on 12th street, between R and S streets, N. W., and adjoining the Gales Building, beg leave to report, that they approve the purchase of both pieces of property, which are needed for the use of these buildings, as the buildings in both cases cover nearly all the ground owned by the District.

It is important that the schools should be as little objectionable as possible to the surrounding property, and to do this the children should be kept off the street and restricted to ground belonging to the schools.

We recommend that the Commissioners be requested to ask Congress for an appropriation for the purchase of both these properties.

(Signed)

JOHN T. MITCHELL,
A. H. WITMER, M. D.,
Committee.

Adopted.

Mr. CORNISH, from the Committee on Industrial Education, etc., submitted the following report :

SEPTEMBER 17, 1889.

The Board of Trustees of Public Schools.

GENTLEMEN: The Committee on Industrial Education, to whom was referred for report the following, to wit :

"*Resolved*, That upon the organization of the night schools the unassigned Normal graduates, as far as may be practicable, be employed as teachers in said schools,"

respectfully submit that the law authorizing the employment of teachers for the night schools leaves the Board free to select such persons as may be deemed best suited to teach in said schools, and who from age, experience in teaching, and the possession of other essential qualifications, would give promise of greater success as teachers in the night schools, than would inexperienced young Normal graduates.

The law also permits the employment of teachers in the day schools. The committee is therefore of the opinion that the freedom granted the Board under the law, in the selection of teachers for the night schools, should not be abridged. The graduates of the Normal schools of this District are professionally trained to teach young children in the first and second grades in the schools of the District of Columbia; it would therefore seem not to be just to them, nor for the best interest of the night schools, to assign them to duty in these schools where pupils of all ages are received.

The committee is therefore of the opinion that no change should, at this time, be made in the manner of selection and appointment of teachers for the night schools.

Respectfully submitted :
(Signed)

L. A. CORNISH,
GEO. WHITE,
J. J. DARLINGTON,
Committee.

Adopted.

Mr. CORNISH, from the same committee, also submitted the following recommendation :

Assign the following graduates of Washington Normal School, class of 1889, to the schools of cookery, first six divisions, at salary of \$500 each *per annum* unless otherwise specified, to take effect September 1, 1889 :

L. C. Bogan.

M. R. Brooks, at \$550 *per annum*.

M. J. Merillat.

M. A. Douglass.

Approved.

Mr. WHELPLEY moved that the salaries of M. E. Martin and L. A. Bradley, teachers of eight grade schools in the Fourth and Fifth Divisions, respectively, be reduced from \$1000 to \$950 *per annum*, in conformity with the provisions of the report of the Committee on Teachers and Janitors, adopted by this Board at a meeting held July 29, 1889.

On motion of Mr. WHITE, as a substitute for the foregoing motion of Mr. WHELPLEY, the matter was referred to the Committee on Teachers and Janitors for report this date.

Pursuant to the foregoing reference, Professor GREGORY, from the Committee on Teachers and Janitors, submitted the following :

The Committee on Teachers and Janitors recommend that the following be adopted by the Board :

Resolved, That the rolls of the Fourth and Fifth Divisions be corrected by placing the salaries of Mrs. M. E. Martin and Mrs. L. A. Bradley at \$950 instead of \$1000, the former being the salary received by all other eighth grade teachers who are not principals of buildings, and the salaries of the two teachers named having been left at \$1,000 by inadvertence.

(Signed)

JAS. M. GREGORY,
A. H. WITMER, M. D.,
J. W. WHELPLEY,
Committee.

Adopted.

Dr. WITMER, local committee, Sixth Division, moved that the minutes of the meeting held July 29, 1889, be corrected as follows, with respect to the names, grades, and salaries of teachers in that division :

Transpose grades, assignments, and salaries of Bertha Buehler and C. G. Brewer, so that, as corrected, each will be as follows :

C. G. Brewer, sixth grade, Anacostia, \$775.

Bertha Buehler, fifth grade, Anacostia, \$700.

Carried.

Mr. CORNISH submitted the following :

SEPTEMBER, 17, 1889.

To the Board of Trustees of Public Schools, D. C.

GENTLEMEN: In accordance with notice given at the regular meeting of the Board held August 13th, I move to amend Rule 18 by striking out the third paragraph in the following words, and by adding to the second paragraph the words "Washington Normal School, Seventh and Eighth Divisions," so as to make the rule read * * * * (see notice).

Very respectfully,

L. A. CORNISH.

Referred to Committee on Rules.

The President, Mr. Ross, announced to the Board the presentation to the the public schools, through Superintendent POWELL, of a large and valuable map of the United States, by Hon. Simon Wolf, of this city.

On motion of Mr. MITCHELL, seconded by Mr. DARLINGTON, the thanks of this Board were tendered Mr. Wolf for his generous gift and his evidence of interest in the public schools worthy of imitation by all citizens.

Adjourned.

Recommended that C. L. Wilder Harris and S. J. Cox Peters, who are now married, be dropped, to take effect December 31, 1889.

Promote L. Cook from seventh grade to position of training teacher in the Normal School of the Seventh and Eighth Divisions, at salary of \$950 *per annum*, *vice* C. L. Wilder Harris, dropped, to take effect January 1, 1890.

Promote A. Taylor from fourth grade to position of practice teacher in the Normal School of the Seventh and Eighth Divisions, at salary of \$700 *per annum*, to take effect January 1, 1890, *vice* S. J. Cox Peters, dropped.

(Signed)

FRANCIS J. GRIMKE.

Dr. WITMER moved, with reference to the foregoing report, that the same be recommitted to the Committee on Normal and High Schools for further consideration and report, and that said report be considered by the Board at a meeting to be held before January 1, 1890.

Lost.

The report was then adopted.

Superintendent POWELL made the following announcement:

Edward E. Hartwell, M. D., Ph. D., of Johns Hopkins University, will lecture to the teachers of Washington, at the High School Hall, on O Street N. W., on Thursday, the 12th instant, at 3.00 o'clock.

Subject: "The Nature of Physical Training and the Best Means of Securing its Ends."

Adjourned.

SPECIAL MEETING.

FRANKLIN SCHOOL BUILDING, *December 20th, 1889.*

The Board of Trustees of Public Schools of the District of Columbia met on the above date, pursuant to call by the President.

Pending the calling of the roll the Secretary read the following communication :

OFFICE OF THE COMMISSIONERS,
DISTRICT OF COLUMBIA,

WASHINGTON, *December 14, 1889.*

Ordered, That owing to the declination of A. S. Solomons, Rufus H. Thayer is hereby appointed a member of the Board of School Trustees, *vice* J. J. Darlington, resigned, to take effect the 13th inst.

Official copy furnished Board of School Trustees.

By order :

W. TINDALL,
Secretary.

Filed.

Present : The President, Mr. John W. Ross, and Messrs. Thayer, Whelpley, Mitchell, Gregory, and Grimke.

In absence of the Secretary, Mr. J. G. Gurley, Mr. W. J. Chinn was elected Secretary *pro tempore*.

The President laid before the Board the following correspondence :

WASHINGTON CITY POST OFFICE,

OFFICE OF THE POSTMASTER,

WASHINGTON, D. C., *December 13th, 1889.*

Hon. J. W. DOUGLASS,

President, etc.

DEAR SIR: At the last meeting of the School Board two teachers were dropped from the rolls because, since their appointment upon the force for the current year, each of them had married. It may become important that the Board be advised as to its legal rights in the premises. I therefore respectfully suggest that the whole question of the power of the Board of Trustees to drop teachers from the rolls during a pending school year, for such cause, be referred to the Attorney for the District of Columbia for his advice.

Very respectfully,

JOHN W. ROSS.

(ENDORSEMENT.)

OFFICE OF ATTORNEY FOR D. C.,

December 14, 1889.

Hon. J. W. DOUGLASS,

President, etc.

SIR: The fact of marriage in this case would not of itself constitute a legal cause for the removal of the teachers, unless the contract of employ-

ment contains an express condition authorizing the Board so to do; and if it does not, then unless the Board can show, and are certain, that the marriage has substantially disqualified them from the performance of their duties as teachers under the requirements of the said contract of employment, they, the Board, would not be justified in the law in dropping them from the "rolls because since their appointment upon the force for the current year each of them had married."

GEO. C. HAZELTON,
Attorney for D. C.

With respect to the foregoing correspondence, Mr. Grimke, local committee, Seventh Division, submitted the following:

In view of the decision of the District Attorney, touching the power of the Board to drop a lady teacher before the end of the school year on account of marriage, I would therefore move that the action of the Board at its last regular meeting, by which certain teachers were dropped, to wit: Mrs. C. L. Wilder Harris and Mrs. S. J. Cox Peters; and by which certain other teachers were promoted to fill their places to wit: Miss L. Cook and Miss A. Taylor; and by which certain other changes were made in the Seventh and Eighth Divisions, conditioned upon the adoption of the above recommendations, be now reconsidered.

Carried.

Mr. GRIMKE, from the Committee on Normal and High Schools, etc., presented the following:

In view of the inability of the Board to adopt the recommendations of the committee, the committee would therefore beg leave to withdraw said recommendations.

Granted.

Mr. THAYER, local committee, First Division, submitted the following recommendation for that division:

Grant leave of absence, without pay, from December 1, 1889, to February 28, 1890, inclusive, to A. J. Lewis, teacher at \$600 *per annum*.

Granted.

Mr. Ross, local committee, Second Division, submitted the following recommendations for that division:

Accept resignation of John Lusby, janitor of Blake School, to take effect December 15, 1889.

Accepted.

Appoint Samuel T. Smoot janitor of Blake School, to take effect December 16, 1889, *vice* J. W. Lusby, resignation accepted.

Referred to Committee on Teachers and Janitors.

Mr. GRIMKE, local committee, Seventh Division, submitted the following recommendations for that division:

Appoint L. C. Wilder temporary teacher, third grade, at \$550 *per annum*, from November 11, 1889, to January 1, 1890.

Appoint J. M. Taylor temporary teacher, third grade, at \$500 *per annum*, from November 25, 1889, to January 1, 1890.

Promote E. N. Sewall from first to third grade, at \$550 *per annum*, to take effect January 1, 1890.

Appoint L. C. Wilder, first grade, at \$400 *per annum*, to take effect January 1, 1890.

Appoint Bertie Brooks, first grade, at \$400 *per annum*, to take effect November 25, 1889, *vice* I. C. Winslow, deceased.

Appoint Jenny Jones substitute teacher.

Referred to Committee on Teachers and Janitors.

Professor GREGORY, from the Committee on Teachers and Janitors, reported favorably the recommendations of the local committees of the Second and Seventh Divisions, referred to them this date.

Approved.

Mr. Ross presented the following:

Whereas, Mr. J. J. Darlington, who for three and a half years was an honored member of the Board of School Trustees, has resigned by reason of his business engagements; therefore

Resolved, That by his ability, integrity and courtesy, and by his faithful discharge of every duty which devolved upon him as President of the Board of Trustees, as Chairman of the High and Normal School Committee, and as Trustee for the First Division, Mr. Darlington has won the sincere respect and esteem of all who have been associated with him in the management of the Public Schools of the District of Columbia.

Adopted unanimously.

Adjourned.

SPECIAL MEETING.

FRANKLIN SCHOOL BUILDING, *January 13, 1890.*

The Board of Trustees of Public Schools of the District of Columbia met on the above date pursuant to call by the President, in lieu of the regular meeting of January 14, 1890.

Present: The President, Mr. John W. Ross, and Messrs. Thayer, White, Mitchell, Gregory, Grimke, and Cornish; Mr. J. G. Gurley, Secretary.

On motion, the reading of the minutes of the meeting held December 10, 1889, was dispensed with, and they were approved as printed.

On motion of Mr. Thayer the reading of the minutes of the meeting held December 20, 1889, was dispensed with and they were approved as printed, after being corrected to show that the leave of absence, without pay, granted A. J. Lewis, teacher at \$600 *per annum*, First Division, extended from December 1, 1889, to February 28, 1890, inclusive.

Adjourned.

REGULAR MEETING.

FRANKLIN SCHOOL BUILDING, *February 11, 1890.*

The Board of Trustees of Public Schools of the District of Columbia met on the above date.

Present: The President, Mr. John W. Ross, and Messrs. Thayer, Whelpley, White, Mitchell, Witmer, Gregory, and Cornish; Mr. J. G. Gurley, Secretary.

On motion, the reading of the minutes of the meeting held January 13, 1890, was dispensed with, and, after slight corrections, they were approved as printed.

The following communications were received:

From Clara Bliss Hinds, M. D., city (dated February 11, 1890, addressed to Superintendent Powell and by him referred to this Board), respecting the introduction into the public schools of the District of Columbia, especially the Washington High School, of "physical culture."

Laid on the table.

From P. A. Auer, Recorder of Drill Corps of Columbia Commandery No. 2, K. T. (dated February 11, 1890, presented by Mr. Thayer), asking that the Board "grant the *Corps* permission to occupy the drill-room at the High School on the evenings of the second and fourth Wednesdays of each month for the purpose of drill."

On motion, the Secretary was instructed to inform Mr. Auer that the rules of the schools (rule 43) provide that "the school-houses shall be used only for public school purposes," and that his request, therefore, cannot be granted.

From Miss Isabel Haslup (dated January 22, 1890, addressed to Mr. John W. Ross, President of the Board, referred to Mr. Thayer, local committee, first division, and presented by him) respecting her resignation as teacher in the first division and her standing as a certificate holder.

Laid on the table.

From N. P. Gage, Supervising principal, Second Division (dated February 6, 1890, addressed to Mr. Ross and presented by him), calling attention to the crowded condition of the Henry, Morse, and Phelps Schools,

and recommending the erection of a twelve-room building on northwest corner of lot with Henry School to relieve said schools.

Ordered to be transmitted to the Honorable Commissioners, with favorable recommendation respecting both building and location.

An application for a position as janitor was received from Benjamin West.

Laid on the table.

The Superintendents submitted the following abstract of monthly reports and report of services rendered by substitute teachers for January, 1890:

Referred to Committee on Teachers and Janitors.

Prof. GREGORY, from the committee on Teachers and Janitors, reported favorably the recommendations of the local committees of the second, third, sixth, seventh and eighth divisions, referred to said committee this date.

Approved.

Mr. THAYER, from the committee on Normal and High Schools, etc., submitted the following recommendations:

Washington High School: Promote F. C. Lawyer, teacher, from \$300 to \$400 per annum, to take effect March 1, 1890.

Transfer M. A. Downing, teacher at \$425 per annum, third division, without change of salary, to take effect March 1, 1890.

Washington High School of Seventh and Eighth Divisions: Make appointment of H. L. Bailey as teacher at \$825 per annum, take effect March 1, 1890 instead of Feb. 12, 1890.

Adopted.

Mr. WHELPLEY, from a Special Committee, submitted the following report:

WASHINGTON, D. C., March 11, 1890.

The Board of Trustees of Public Schools of the District of Columbia.

GENTLEMEN: The Special Committee appointed at the last meeting of the Board to consider the subject of the equalization of the duties of the supervising principals of the several divisions, have the honor to submit the following report:

The number of schools in each division at the present time is as follows:

First division, -----	85	Fifth division, -----	38
Second division, -----	103	Sixth division, -----	69
Third division, -----	98	Seventh division, -----	—
Fourth division, -----	53	Eighth division, -----	—

After careful consideration of the matter, your committee recommend that the following transfers of schools be made:

The Weightman (9 schools) and Grant (14 schools) Schools, from the first division to the fifth division.

The Webster (12 schools) and Phelps (9 schools) Schools, from the second division to the first division.

The McCormick (5 schools) and Lenox (8 schools) Schools, from the third division to the fourth division.

The result of the foregoing changes would be the following numbers of schools in the several divisions, respectively:

First division, -----	83	Fifth division, -----	61
Second division, -----	82	Sixth division, -----	69
Third division, -----	85	Seventh division, -----	—
Fourth division, -----	66	Eighth division, -----	—

The foregoing changes are proposed by your committee with the view of

securing the greatest compactness of the schools of the several divisions consistent with approximately equal duties of the supervising principals.

Respectfully submitted,

J. W. WHELPLEY,
RUFUS H. THAYER,
JOHN T. MITCHELL.

Laid on the table.

On invitation of the President, Mr. Ross, Capt. Robert L. Phythian, U. S. N., addressed the Board with reference to a nautical school as a part of the public school system of the District of Columbia, setting forth the advantages afforded by such a school, its cost and many other features of interest.

At the conclusion of his remarks, on motion of Dr. Witmer, the thanks of the Board were unanimously tendered Capt. Phythian for the information laid before the Board by him.

Dr. WITMER offered the following resolution:

Resolved, That a committee of three, of which the President of the Board shall be chairman, be appointed, to call to the attention of the Commissioners of the District of Columbia the advantages to be derived by the public school system of Washington from the benefits obtaining to divers cities and ports of the United States, under an act of Congress approved June 20, 1874, entitled "An Act to encourage the establishment of public marine schools," and further to urge upon said Commissioners the importance and necessity of petitioning Congress to accord to the city of Washington all the rights and privileges appertaining to the other cities named in said act, and to appropriate a sufficient amount of money to establish and conduct a school in accordance with the provisions of said act.

Adopted; and the Chairman (Mr. Mitchell) named as the committee Messrs. Ross, Witmer and Grimke.

On motion of Mr. MITCHELL, it was—

Ordered, That so much of the last annual report of Superintendent Powell as relates to the Washington High School and additional accommodations therefor be referred, for consideration and report, to the committee on Normal and High Schools.

On motion of Mr. Ross, Messrs. Thayer, Grimke and Whelpley were appointed a special committee, with power to act, to obtain from Congress, through the Honorable Commissioners of the District of Columbia, the appropriation of such sum as the committee may deem necessary, for the purchase of sites and erection of school buildings provided for in the District of Columbia appropriation act for the fiscal year ending June 30, 1891, as passed by the House of Representatives, in addition to the amount provided by said act for said purpose.

SPECIAL MEETING.

FRANKLIN SCHOOL BUILDING, April 7, 1890.

The Board of Trustees of Public Schools of the District of Columbia met on the above date, pursuant to call by the President, in lieu of the regular meeting of April 8, 1890.

In the absence of the Secretary, Mr. J. G. Gurley, Mr. J. W. Whelpley was elected Secretary *pro tempore*.

Present: The President, Mr. John W. Ross, and Messrs. Thayer, Whelpley, White, Mitchell, Witmer, Gregory, Grimke, and Cornish.

The following communications were received:

From W. Calvin Chase, President, etc. (dated March 15, 1890), asking that the colored schools of the District of Columbia be closed on Wednesday, April 16, 1890—the Twenty-eighth Anniversary of the Emancipation of Slaves in the District of Columbia.

Request granted.

From H. R. Peters, principal, and A. D. Johnson, J. M. Spears, Jacob G. Hutchins, Andrew F. Hillyer, *et al.*, teachers of Mott school, and parents of pupils therein, calling attention to the bad condition of the sidewalks in the neighborhood of said school and requesting the Board to urge on the Honorable Commissioners the necessity of remedying the evil.

Ordered to be forwarded to the Honorable Commissioners with the recommendation that the work be done.

Applications for teachers' positions were received from Lily A. Chester (for position of assistant teacher of drawing in the Washington High School) and Edward D. Scott.

Referred to Committee on Teachers and Janitors.

Referred to Committee on Teachers and Janitors.

Dr. GRIMKE also submitted the following report:

WASHINGTON, D. C., April 7, 1890.

To the Board of Trustees of Public Schools of the District of Columbia.

GENTLEMEN: As Trustee of the seventh division, to whom was referred a communication from Messrs. Schneider, Britton, and others, asking that the use of the Miner School Building, located on 17th street between P and Q, be discontinued after the present school term or as soon after as practicable, I would recommend that no action be taken in the matter. The reasons assigned in the document for making the request should not only have no weight with the Board, but should be frowned down by it.

The first reason assigned is because it is a colored school and because those who are likely to live in that neighborhood strongly object to being near such school. I assume that the colored schools are entitled to the same consideration as the white schools, and therefore that no request that discriminates against them on account of color ought to be entertained by this Board.

The second reason assigned is that the neighborhood is rapidly improving; that within the next year nearly a half million of dollars will be expended in improving the south side of Q street between 17th and 18th by a handsome block of stone-front residences.

The assumption that underlies the reason, namely, that school-houses ought not to be located in neighborhoods where improvements are going on or are likely to go on, but should be relegated to out-of-the-way places or places where wealth is not likely to flow, is one that ought not to be encouraged by this Board. These schools are the safeguards of our liberties and the pledge and guarantee of the perpetuity of our institutions. In them the future citizens of the Republic are being trained. Instead, therefore, of regarding them as nuisances to be tolerated simply because it can't be helped, we ought to cherish them and to feel that no spot of earth is too precious upon which to locate them; or, if we assume that all schools are nuisances, wherever located, it would be obviously improper for this Board to entertain a request looking to the removal of a nuisance of this kind from one locality and the infliction of it upon another, especially as, in the present instance, the nuisance existed before those who petition to have it removed were on the ground. The proper thing for the people to do who object to living in the vicinity of schools is to stay away from them, and not come into the neighborhood and expect the public good to be sacrificed to their personal interests.

Another reason why no action should be taken in the matter is that the request involves a positive discourtesy to a part of this Board at least. Here is a petition, addressed to a body made up of both races, asking for the discontinuance of the use of a certain school building on the ground that it is colored, and that that fact makes it a nuisance. I trust that I am not over sensitive, but as a self-respecting man I confess I do not care, as a member of this body, to have presented for my consideration a paper such as this, which assumes that the negro is an object to be despised and shunned. Nor do I think it is courteous to the colored members for the Board to give any consideration to such papers.

(Signed)

FRANCIS J. GRIMKE.

Adopted.

Mr. CORNISH, local committee, eighth division, submitted the following recommendation for that division:

Promote Susan Robinson, teacher, from \$500 to \$550 per annum, to take effect April 1, 1890.

Referred to Committee on Teachers and Janitors.

Prof. GREGORY, from the Committee on Teachers and Janitors, reported progress in the investigation of the case of the janitor of the Curtis School.

Prof. GREGORY, from the same committee, also reported favorably the recommendations of the local committees of the second, fourth, fifth, sixth, seventh, and eighth divisions, referred to them this date.

Adopted.

Dr. GRIMKE, from the Committee on Penmanship, etc., submitted the following report:

WASHINGTON, D. C., April 7, 1890.

To the Board of Trustees of Public Schools of the District of Columbia.

GENTLEMEN: The Committee on Penmanship, etc., to whom was referred the communication of Prof. G. W. Woolley, respecting his "Guide and Shield for Penholders," would report that they have examined the "Guide," and would recommend that the Board commend it to the favorable consideration of the teachers and pupils of the public schools of the District.

FRANCIS J. GRIMKE,
JOHN W. ROSS,
J. W. WHELPLEY,
Committee.

Adopted.

Mr. THAYER, from the Special Committee (appointed March 11, 1890) to obtain from Congress, through the Honorable Commissioners of the District of Columbia, an additional appropriation for the purchase of sites and the erection of school buildings, reported verbally that the Senate Committee on Appropriations had agreed to recommend such appropriation.

Mr. Ross, from the Special Committee (appointed March 11, 1890) to urge upon Congress, through the Honorable Commissioners of the District of Columbia, the desirability and importance of establishing a Nautical School in the District of Columbia, reported verbally.

Mr. Ross, local committee, second division, submitted the following preamble and resolutions:

Whereas Miss M. J. Scrivener, a most worthy and highly esteemed teacher of the second division, has been taken away from her friends and pupils by a sudden and fatal illness: Therefore

Resolved, That by her faithful performance of every duty which devolved upon her she deserved and won the unfeigned respect of all connected with the Public Schools of the District of Columbia.

Resolved, That these resolutions be spread upon the minutes of the Board, and that a copy of the same be transmitted to the family of the deceased.

Unanimously adopted.

Adjourned.

REGULAR MEETING.

FRANKLIN SCHOOL BUILDING, *June 10, 1890.*

The Board of Trustees of Public Schools of the District of Columbia met on the above date.

Present: The President, Mr. John W. Ross, and Messrs. Thayer, Whelpley, White, Mitchell, Gregory, Grimke, and Cornish; Mr. J. G. Gurley, Secretary.

The reading of the minutes of the meeting held May 13, 1890, was dispensed with and they were approved as printed.

The following communications were received:

From Henry Johnson, city (dated June 10, 1890), setting forth his views with respect to the action of the Board at its last meeting reducing the number of pupils to be admitted to the Washington Normal School of the Seventh and Eighth Divisions from forty to twenty and submitting reasons why, in his judgment, said action was unwise.

Laid on the table.

Applications for positions as teachers were received from Mrs. E. B. Clarke and Ursuline Brown.

Referred to Committee on Industrial Education, etc.

The Superintendents submitted the following abstract of reports and report of services rendered by substitute teachers for the month of May, 1890:

Washington High School (7th and 8th Divisions)	1
Filed. Grand Total	250½

Mr. Ross, local committee, Second Division, submitted the following recommendations for that division :

Appoint B. M. Dove, temporary teacher at \$550 per annum, permanent teacher at \$550 per annum, to take effect June 1, 1890.

Appoint J. H. Spies, M. R. Lyddane, and A. E. Haslup temporary teachers at \$400 per annum, each, permanent teachers at \$400 per annum, each, to take effect June 1, 1890.

Referred to Committee on Teachers and Janitors.

Professor GREGORY, local committee, Sixth Division, submitted the following recommendations for that division :

Accept resignation of A. D. Evans, teacher at \$475 per annum, to take effect May 31, 1890.

Accepted.

Appoint Carrie Pierre teacher at \$400 per annum, to take effect June 1, 1890, *vice* A. D. Evans, resignation accepted.

Transfer S. E. Jackson, temporary teacher at \$400 per annum, to Seventh Division, to take effect June 9, 1890.

Appoint Carrie Crouch temporary teacher at \$400 per annum, to take effect June 10, 1890, *vice* S. E. Jackson, transferred.
 Referred to Committee on Teachers and Janitors.

Rev. Dr. GRIMKE, local committee, Seventh Division, submitted the following recommendations for that division:

Accept resignations of teachers as follows, to take effect May 31, 1890:

C. E. Pryor, at \$775 per annum.

S. J. Peters, at \$700 per annum.

A. J. Howard, at \$475 per annum.

E. E. Cardozo, at \$450 per annum.

Accept resignation of M. F. Geary, teacher at \$400 per annum, to take effect June 9, 1890.

Accepted.

Appoint S. E. Jackson teacher at \$400 per annum, to take effect June 10, 1890, *vice* A. W. Myers, deceased.

Appoint L. E. Pierre teacher at \$400 per annum, to take effect June 1, 1890, *vice* E. E. Cardozo, resignation accepted.

Appoint M. B. Washington temporary teacher at \$400 per annum, from June 1st to 9th, inclusive.

Referred to Committee on Teachers and Janitors.

Mr. CORNISH, local committee, Eighth Division, submitted the following recommendations for that division:

Appoint F. D. Smith teacher at \$400 per annum, to take effect June 1, 1890, *vice* A. J. Howard, resignation accepted.

Appoint M. B. Washington teacher at \$400 per annum, to take effect June 10, 1890, *vice* M. F. Geary, resignation accepted.

Appoint A. J. Tyler teacher at \$775 per annum, to take effect June 1, 1890, *vice* C. E. Pryor, resignation accepted.

Referred to Committee on Teachers and Janitors.

Professor GREGORY, from the Committee on Teachers and Janitors, reported favorably the recommendations of the local committees of the second, sixth, seventh, and eight divisions, referred to said Committee this date.

Adopted.

Professor GREGORY, from the same committee, also submitted the following report:

WASHINGTON, D. C., June 10, 1890.

To the Board of Trustees of Public Schools of the District of Columbia.

GENTLEMEN: The Committee on Teachers and Janitors have the honor to recommend that in accordance with the results of the examination of candidates for teachers' certificates, held May 16th and 17th, 1890, certificates be awarded as follows:

Third class certificate to Hanson Lemon.

First class certificates to Emilie Devlin, Sarah R. Lawton, and Margaret Wiggins.

Special certificate enabling holder to teach in the Washington High School of the Seventh and Eighth Divisions, to Henry L. Bailey.

The recommendations of the Committee for the award of certificates is based on the standard adhered to in corresponding examinations for several years past, namely :

For a third class certificate, not less than seventy per cent.

For a second class certificate, not less than sixty-five per cent.

For a first class certificate, not less than fifty-five per cent.

JAS. M. GREGORY,
J. W. WHELPLEY,
Committee.

Adopted.

Mr. THAYER, from the Committee on Normal and High Schools, etc., submitted the following recommendations and report :

Promote M. S. Wolhaupter, teacher in Washington High School of First Six Divisions, from \$400 to \$650 per annum, to take effect June 1, 1890.

Appoint M. A. Madry, teacher at \$700 per annum, to take effect June 1, 1890, *vice* S. J. Peters, resignation accepted.

Committee.

Adopted.

WASHINGTON, D. C., June 10, 1890.

To the Board of Trustees of the Public Schools.

GENTLEMEN: The Committee on High and Normal Schools, to whom was referred the matter of relief to the Washington High School, begs leave to submit its report thereon.

The importance and gravity of this question are tersely and specifically stated in the last annual report of the Board (pages 10 and 11).

We quote therefrom :

"A point has also been reached in the history of the Washington High School in which it has become apparent that a single high school is insufficient to meet the wants of a community numbering nearly or quite a quarter of a million of inhabitants. The attendance for the current year has reached the number of 1,400, which is not only enough to fill the High School building, including the addition thereto provided in last year's appropriation, but is as large a number as can be properly managed and instructed by a single corps of teachers. In addition, a single building in a territory of 60 square miles must necessarily be inconvenient of access to a large number of pupils. A temporary expedient may be found in the recommendation of the Principal and the Superintendent that the course of study pursued in the first year of the High School be relegated to the grammar schools, constituting practically a ninth grade, a measure which is rendered feasible by the fact that in the first year but little in the way of apparatus, laboratories, and the like is essential to instruction of the pupils. The wisest and, in our judgment,

the only complete remedy, however, lies in the establishment of two complete additional high schools—one located in the third, or Capitol Hill, division, and the other in the northwest section of the city, either in or convenient to Georgetown. The establishment of these schools would involve considerable expenditure of money, not only in securing suitable sites and erecting suitable buildings, but in being furnished, as they should be furnished, with an outfit equal in all respects to the present Washington High School; but such expenditure would be wisely made, and we are sure would be entirely acceptable to the tax-payers and the community at large.

Superintendent Powell also calls special attention to this serious question in his last annual report to the Board (pages 22 and 23). We quote that portion of his report:

"Provision must be made for the accommodation of children attending the High School. The annex building will no more than meet the present demands. After the addition is completed and the then new High School occupied, our accommodations for High School pupils will be exhausted.

"I respectfully suggest that the present High School is large enough, if, indeed, it is not already too large. It is not practicable, perhaps, to establish other co-ordinate high schools. I do not believe it desirable. The plant for such school is expensive. It is always expensive to manage such a plant, as only experts can manage it profitably.

"The limitations in salaries insisted upon by Congress make it impossible for us to employ the number of experts required for more than one high school. I believe, however, that the solution of this question is easy and practicable. The first year's work of the present High School might be done advantageously, perhaps more profitably than it is now done, in the respective localities where these children live. Plants for these auxiliary high schools on local high schools or division high schools would not be expensive. This first year's work is:

<i>Academic.</i>	<i>Scientific.</i>	<i>Business.</i>
English.	English.	English.
History.	History.	History.
Algebra.	Algebra.	Algebra.
Latin.	German.	Book-keeping and Business Arithmetic.
Physiology.	Physiology.	Physiology.
Physical Geography. (Lectures.)	Physical Geography. (Lectures.)	Physical Geography. (Lectures.)

"The work of this year can be done without much apparatus. The science work is that which nature affords, and is better studied in the field or fresh from the field than in any other place or under any other conditions. The work in mathematics requires no apparatus. The work in English, which should be emphasized and extended, requires only such libraries as we are now trying to furnish for our eighth grade schools.

"Two or three such schools might be opened another year in buildings now owned.

"The advantages and disadvantages of this scheme I will not here discuss. I present the question as one that demands solution for the immediate future, and refer you with gratification to remarks on the same subject by Supervising Principals Stuart and Janney, a part of this report."

Similar comment on this question is also made by Doctor Lane, Principal, in his latest annual report (pages 119 and 120). We quote his statements thereon :

"The addition to this school, now in course of erection, will contain 12 class-rooms, ample laboratories, an armory, and a library. It will be an admirable fulfillment of a long and serious need. The school for 1889-'90 will be organized with the accommodations afforded by this splendid improvement.

"The difficulties of rented rooms and of the half-day session for a portion of the school will be removed; yet at the moment that this will be accomplished, at the very time that the school will be rejoicing over obstacles surmounted, it will be my duty to call attention to the indications for the future as inferred from the statistics of the past.

"The school has grown year by year at the rate of 20 per cent, approximately—i. e., 1886, an increase of 90; 1887, 87; 1888, 138; 1889, 194.

"With these figures as a basis, it seems assured that for the year 1890-'91 there will be 1,600 pupils to be admitted to the High School.

"The growth of the institution since the year 1886 has been far in advance of the accommodations afforded. With the erection of the addition it might appear that the future needs of the school, at least for a period of years, have been anticipated; but, as a fact, the present building and new wing are sufficient to accommodate no larger school than now exists. We believe this limit, from an educational point of view, a wise one. After passing 1,400 the students under one management will suffer materially in supervision, and the best interests of the school be seriously affected by the interruption of the legitimate work of a principal from the consumption of valuable time in petty details, interfering with constant and searching supervision and the prompt remedy of evils in the quantity, quality, or manner of instruction.

"It would be wiser, perhaps, to curtail rather than to increase the size of the school, provided that those pupils who are fitted, to whatever number they may desire it, are provided with advanced instruction.

"The remedy for the evil of a crowded school exists either in the establishment of another high school or in the creation of branch schools for the lower class, which, requiring but little apparatus, could be provided for without a costly plant.

"It is inevitable that another high school should be built, but it is a matter that will require time for securing appropriations necessary for the building and apparatus needed. Legislation is slow and conservative; the project will meet many obstacles, but its ultimate success is certain. In the meantime the overflow from this school is to be provided for.

"It seems feasible that girls of the entering class to the number of four or five hundred should receive instruction in all the studies of the present course in one or two branch schools, while all boys, the remaining girls of the same grade, and the upper classes should be taught here in continuation of the present plan.

"It would then be possible to limit the present school to the proper number of students (at most 1,200) and go on with the higher work requiring laboratories and the extensive equipment which this school has been some years in securing. This is regarded as a practicable *temporary* expedient only."

Further intelligent and forcible comment on this question is made by Supervising Principal Stuart, of the Third Division, and Supervising Principal Janney, of the Fifth Division, in their reports.

Mr. Stuart says (pages 91 and 92):

"I think the time has come when a High School should be located on Capitol Hill. My reasons are these: In 1887, 106 pupils were transferred from our eighth grade schools to the Washington High School; in 1888, 131, and in 1889, 127, making in all for three years 364, of whom 139 were boys and 225 were girls. I estimate the number to be transferred from the Third Division at the end of the current school year at 150. This number will increase from year to year.

"It is seen, therefore, that we have in the classes of three years the material in East Washington for a High School of nearly 400 pupils.

"The fine square of ground occupied in part by the Wallach and Towers Schools affords an ample site for such a school without cost to the District.

"The Washington High School long ago reached the limit of its capacity, and I am informed that its present unwieldy membership of 1,400, drawn from the extreme limits of the District of Columbia, will quite absorb the school-room space now being added. If so, a return to the half-day system can be a question of only a year or two."

Dr. Lane, in his last report, says:

"With the utmost crowding the assembly hall will not contain the entire school when it is desirable to meet for general exercises. The lecture-rooms and laboratories are so cramped that the work in natural science and physics is materially restricted.

"The capacity of the present elastic building is reached.

"I am convinced that many children from East Washington, who are now obliged to withdraw from the High School on account of the great distance and the expense of railroad travel, would complete the course if a school were located in their own section."

Mr. Janney says (page 105):

"The new building to be erected on U street, in this division, will be beautifully located. Its comparative isolation makes it well adapted for the nucleus of a High School or a branch of the existing one. There are pupils in the High School now, graduates from eighth grades here for the last three years, and fifty-four candidates for the coming year, all of whom have or will have to walk over two miles to school and two back, making four miles a day, with an armful of books, or pay two car fares, at a cost of nearly 50 cents per week.

"The time required in going to and from the present High School each day, whether on foot or in the cars, is at least one and a half hours, in all sorts of weather.

"It seems that the establishment of such a school in this division next year would be wise."

It is thus seen that the necessity for the present consideration of this question is enforced by the concurrent statements of those officers of the public schools under whose immediate charge are the interests immediately affected, emphasized by the statements of our accomplished Superintendent and formally recognized by the Board.

The urgency of the question is shown by an exhibit of the number of pupils now in the High School, with a statement of the estimated number to be provided for in the next school year.

This exhibit is as follows:

Present Number.

First-year pupils	633
Second-year pupils	316
Third-year pupils	318
Total	1,267

Number for Next Year.

First and second year pupils	949

It is thus seen that the estimated number of High School pupils to be provided for during the next school year is sixteen hundred and seventy-one.

The Board is fully advised as to the recent extension of the present High School building, which supplied an urgent need, relieving an overwhelming demand for room and permitting an enlargement of facilities and a satisfactory adjustment of the work of the school. Notwithstanding this extension the building is now inadequate.

The number of High School pupils has been rapidly increasing each year, and has more than kept pace with the enlarged accommodations. It is not deemed necessary to discuss the reasons producing this result. Your committee believes that the intelligent and forcible statements made in the last annual report of the Board (pages 7, 8, and 9), under the head of "Pay of Teachers" and "The Washington High School," embrace the principal causes operating to produce this result. But whatever the cause, the Board is confronted with the result in the form of over 1,600 pupils who will be knocking at the doors of the High School at the beginning of the next school year.

The solution of this question is also seriously embarrassed by the fact that the High School is not located with marked convenience to the large area of the city. The closely populated area from which these pupils mostly

come stretches from the limits of Georgetown to the remote points of East Washington, a distance of more than four miles. The outlying territory of Anacostia, Benning, Brightwood, and Tennallytown must be accommodated also. The corner of Seventh street and Pennsylvania avenue may be taken as a reasonably central point for this whole area, particularly so when consideration is given to the street-car facilities of the city. Unfortunately the school is located nearly one mile north of this point. It is thus seen that High School pupils from the Capitol Hill district and from Georgetown have a distance of from two to three and one-half miles to traverse to reach Seventh and O streets.

The cost of car fare is not too insignificant not to be in many cases burdensome. It is not doubted that in some cases it operates as a bar to the parent and prevents him from giving his child the advantages of a High School course. Besides the cost of car fare, the long distance becomes a more serious deterrent factor when inclement weather intervenes, which operates more especially upon the younger pupils and upon the female pupils. *Territorial convenience*, therefore, is one of the important factors to which careful consideration must be given in the disposition of this question.

This element of the problem includes and embraces a question which has been much discussed and variously determined in different school jurisdictions. It is a question which sooner or later presents itself in every large municipality of the country when the number of High School pupils reaches from 1,000 to 1,200 pupils.

There are two methods of meeting this question:

First, By establishing additional independent High Schools.

Second, By maintaining one central High School and establishing from time to time supplementary schools, in which the lower grades of High School work shall be done.

It is manifest that we are rapidly reaching, if we have not already reached, the point where this problem must be solved in Washington. It is freely admitted that the maximum number of pupils that can be handled most effectively in a single school of this character is from 1,000 to 1,200. To care for more than this number will be at the expense of efficiency, of health, and of wholesome moral influences. Your committee, after a careful study of the present data and in view of the limitations placed upon the Board by the present appropriations and those in the bill now pending before Congress, does not think it wise or necessary to dispose of this important question at this time. Its importance demands the most careful study.

To establish one or more independent High Schools would require a considerable expenditure of money. Careful estimates of cost would have to be made and submitted to the Commissioners and to Congress. Before entering upon such a field it seems wise to make some experiments in adjustments within the limits of our present system. When the time is reached for the settlement of the main problem we shall not only have the experience of other cities to aid us, but will have gathered wisdom of our own as the fruit of our experiments.

This brings us to the first proposition, which we commend to the favorable action of the Board :

It is that, in at least two localities, carefully selected, in buildings already owned and equipped, experimental adjunct schools be established, to whom shall be confided the work of the first year of the High School course for a limited number of pupils. It must be borne in mind that the main present motive for the action recommended is the absolute necessity existing for relief to the High School by reducing the number of prospective pupils by about 500. To effect this result with the least disturbance to our present system and with the best promise of improved conditions defines our limits of experiment. Whatever is done must be accomplished within the limits of existing appropriations, and must under no circumstances lessen the efficiency of any other branch or part of the system.

Where shall such relief schools be located ?

Your Committee believes that the first locality to be selected for this purpose should be the Third Division. This division is a long distance from the High School, is thickly populated, and the estimated number of eighth grade promotions for next year is 146.

This number may be further increased by the first year pupils from the Arthur and Gales buildings in the Second Division, 48 in number, and by 3 pupils from Anacostia and 3 from Benning, making an aggregate of 200 pupils.

The other location naturally suggested is in the Fifth Division. This division (Georgetown) lies at the western limit of our city school area, and is also a long distance from the present High School. The estimated number of new pupils from this district is 35.

To this number may be added the new pupils from the Weightman and Grant buildings, in the First Division, numbering 39, and 3 pupils from the Tennallytown School of the Sixth Division, making a total of 77 pupils, which may be possibly increased somewhat from other portions of the First Division.

The particular buildings to be selected for this purpose recommended by your Committee are the *Peabody building*, in the *Third Division*, and the *Curtis building*, in the *Fifth Division*. The selection of these buildings is recommended by reason of their central location with reference to the area to be accommodated. Only a portion of each building will be required for this purpose.

Your Committee is advised by the Trustees of the Third and Fifth Divisions, respectively, that the rooms in the buildings named, required for this purpose, can be spared without serious inconvenience to the Division Schools. At most, the inconvenience suffered in the Third Division will be only temporary. A new eight-room building is provided for this division in the current District bill. In the Fifth Division a new building is fully completed, and it is believed that there will be no difficulty whatever in providing the necessary rooms for this purpose in the Curtis building.

After careful consideration, your Committee is satisfied that many dis-

distinct advantages will be gained by the changes proposed. Among these are :

First, Better moral influences will surround the pupils in these smaller schools than can be possible in the crowded High School building, where so many pupils are massed together.

Second, Better sanitary conditions can be obtained in all the buildings with a lessening of the number of pupils.

Third, Territorial convenience, effecting a saving of car fare and of exposure of young pupils in inclement weather.

Fourth, It is believed also that better instruction can be given in these schools thus segregated than when massed together, with numerous and diverse classes of the central school.

The separation affords opportunity for concentration of effort, which, it appears to your Committee, cannot fail to be advantageous. It is confidently believed also that the change proposed will not materially increase the expense of instruction. No more teachers will be required than would be necessary to maintain the present system, as the large increase of number of pupils would in any event necessitate the employment of additional teachers for the High School. The separation proposed will not require any more teachers than would otherwise have to be employed.

It must also be borne in mind that the first-year work requires no laboratory or apparatus. It includes only biological science, and all the equipment or plant required is such a library as we are now seeking to acquire for eighth-grade schools.

The Committee desires to impress upon the Board the fact that the change proposed should not be considered as committing the Board to the establishment of either permanent supplementary High Schools or permanent independent High Schools. In the judgment of the Committee, it is not now advisable to do more than is necessitated by the conditions now existing. We have an increase of High School pupils beyond the capacity of the present building. Relief in some direction is absolutely necessary. Half-day schools should be avoided. Extended accommodations by renting unsuitable buildings in the neighborhood of the High School building is attended by expense and serious disadvantages.

The course proposed by the Committee is the one that seems to them to afford relief with the least expense and the least disadvantages. At the same time it lays a foundation upon which the Board may rely for some valuable data to aid them in the future. The proposed action, therefore, is an expedient to meet existing conditions, and should not be regarded as anything more than an effort to meet, in the best and most economical way, the present emergency.

The action above recommended relieves the High School to the extent of two hundred and seventy-seven (277), while the relief desired is, approximately, 500. It is necessary to provide for at least 125 more High School pupils so as to afford them necessary relief.

The Board is aware of the frequent suggestions that have been made to

so amend the present organization of our school system as to give pupils who have passed the eighth grade facilities for instruction in commercial and business methods and for training similar to that furnished in the best business colleges. One member of the Board has suggested the establishment of an additional or ninth grade, and that one school of this grade might be established in each of the divisions where deemed advisable.

The attention of the Committee has been called to this important question. The suggestions made have great merit of their own, and would deserve very careful consideration independent of the needed relief of the High School. But, in connection with the fact of an overcrowded High School, it has seemed to the Committee that the question has acquired additional merit for present consideration.

It is known to the Board that the Business Course of the High School is a two years' course and embraces some academical studies. Instruction in English and history and physiology, physics and chemistry, is included in this course, and the Committee believes that an elimination of any of these studies would be a shortening of the course unfortunate for the pupil.

But it is suggested with great force that many parents have not the means to maintain their children in the schools beyond the eighth grade for two or three years, as contemplated in the High School courses, and that many of these would find the means to send their children to a school affording a business course extending over one year, inasmuch as such a course would give the pupil material aid in fitting him for some useful and remunerative employment soon after leaving school. The force of such a demand is recognized by the Committee.

The Board of Trustees is bound to accede to any reasonable demand which seeks an extension of our system of public schools in the interest of that class of our citizens whose means are limited. Believing that such a demand exists, and that the means at hand are ample to provide the facilities suggested, your Committee thinks that the business course of the High School should be so amended as to provide a course of one year carefully arranged on lines shown by experience to be productive of the best results.

It is also deemed entirely practicable to have instruction for pupils in this course given outside of the High School building. In fact, a segregation of the pupils of this course would give some distinct advantages and afford larger opportunities for making the course more valuable and effective.

The withdrawal of these pupils from the High School building, in addition to the number of first-year pupils proposed to be instructed in the Peabody and Curtis buildings, will reduce the number of High School pupils for next year by about 400.

Your Committee is unable to estimate the number of pupils that would select a business course of one year. The number of pupils in the first year of the business course of the High School is 121, and it is safe to assume that not a less number will be applicants for admission to the separate school.

Your Committee finds that the Thomson building, located on Twelfth

street between K and L streets, in the First Division, can be vacated for this purpose, and it recommends that the business and commercial course of the High School, amended as suggested, be transferred from the High School to the Thomson building.

The Committee does not undertake at the present time to submit in detail the changes proposed in the course of instruction in said school, or to suggest the assignment of teachers necessary to properly organize and equip said school, but believes that it is entirely practicable to properly organize the school within the resources at the command of the Board without injury to other branches of the school system.

Admissions to this school should be rigidly held to promotions from the eighth grade or to applicants whose education is clearly equivalent to the standard reached at the end of the eighth-grade work. In this way the school will be maintained as a course of instruction which may be selected instead of the more extended High School courses.

The Committee feels confident that the present equipment of our public school system fairly enables the Board to maintain all its branches without a sacrifice of any of its component parts, and that as improvements are from time to time suggested they can be wisely met. There is not at present, we believe, and there never should be any antagonism between the several branches of the system. Every effort should be made to maintain the system upon the broadest lines, and there should be no lessening of standards.

While, therefore, the changes suggested in this report are primarily enforced to afford relief to the High School, they would not be recommended did they not carry with them promises of distinct present advantages, and also the development of data as the result of actual experiment, to aid the Board in determining upon the permanent extension of our school system, which its phenomenal and healthful growth will soon enforce.

Résumé of Recommendations.

First, Establish a relief school for the High School in the Peabody building, in the Third Division, to which send pupils—

From Third Division, estimated number	146
“ Arthur building, “ “	26
“ Gales building, “ “	22
“ Anacostia, “ “	3
“ Benning, “ “	3
Total	200

Second, Establish relief school for the High School in the Curtis building, in the Fifth Division, to which send pupils—

From Fifth Division, estimated number	35
“ Grant building, “ “	24
“ Weightman, “ “	15
“ Tennallytown, “ “	3
Total	77

Increase this number by such other pupils from the First Division as it may be found practicable to send to the Curtis building.

Third, Vacate Thomson building, in First Division, and transfer the Business Department of the High School to that building.

Amend the business course in such respects as may be found to be advisable and be directed by the Board.

Respectfully submitted,

RUFUS H. THAYER,

JOHN W. ROSS,

FRANCIS J. GRIMKE,

Committee on Normal and High Schools, etc.

Unanimously adopted.

Rev. Dr. GRIMKE, local committee, Eighth Division, submitted the following:

"I would state that Mrs. Amelia W. Ringgold Myers, one of the teachers of the Seventh Division, departed this life on the 18th day of May, 1890; and in connection with this announcement, I would offer the following resolutions:

"*Resolved*, That in the death of Mrs. Myers, whose labors in the public schools of the District covered a period of eighteen years, we have lost a faithful and conscientious teacher, who won the respect of all with whom she was associated.

"*Resolved*, That these resolutions be spread upon the minutes of the Board and that a copy of the same be transmitted to the family of the deceased."

Unanimously adopted.

Mr. MITCHELL submitted the following as an amendment to the rules:

"*Resolved*, That the marriage of any female teacher employed in the schools during the school year shall operate as an immediate resignation."

Referred to Committee on Rules for report at next regular meeting of the Board.

Superintendent POWELL briefly addressed the Board, announcing that an exhibit of the school work of the year would be made in the several school rooms of the first six divisions, on Tuesday, the 17th instant, between the hours of ten a. m. and one p. m., and between half-past two and six p. m., under charge of the respective teachers, and suggested that the public be invited by the Board to attend such exhibit.

On motion of Mr. THAYER, a cordial invitation was extended to the citizens of the District of Columbia to be present at the exhibit of school work before referred to.

Adjourned.
